# POWER BI
WORKBOOK 4

You are required to make this interactive report for your portfolio

The visuals in the above dashboard are:

1. Gauge
2. Stacked Column Chart
3. Map
4. Cards
5. Slicers
6. TextBox
7. Navigation Buttons

Note: Practicing this would allow you to cover all the interactive features in a report. Bonus points that it would be a nice addition in your portfolio.

GOOD LUCK!
